

# Result Action Statements

## Creating Impactful Result Action Statements for Your Resume

Result Action Statements, also known as Action Result Statements or Achievement Statements, are essential elements of a powerful resume. They provide concrete evidence of your skills, accomplishments, and contributions, demonstrating to potential employers that you are a results-oriented professional. Crafting these statements effectively can significantly enhance the impact of your resume. Here's a guide on how to create Result Action Statements along with examples:

### Structure of a Result Action Statement:

A well-structured Result Action Statement typically follows the "CAR" (Challenge - Action - Result) or "AR" (Action-Result) or "RA" (Result- Action) formula:

#### 01 Challenge (or Context)

Begin by setting the stage. Describe the challenge, problem, or situation you faced in your previous role. This provides context for your achievement.

#### 02 Action

Explain the specific actions you took to address the challenge. Highlight your role, responsibilities, and the strategies or approaches you employed.

#### 03 Result

Quantify the outcome of your actions. Describe the positive impact you made, using measurable metrics whenever possible. This is the most critical part of the statement, as it demonstrates your value.
